ExpoGuys is a young-at-heart, dynamic company offering unique, creative and functional exhibition stands, displays, showrooms, retail environments and interiors to the market.

We offer turnkey solutions for exhibitions which can be tailor-made to suit specific requirements while working closely with our clients to ensure objectives are met and budgets considered. For our retail clients, and exhibitors looking for custom-built stands, we offer a full design service, with quick turn around times, manufacture of the design and on site project-managed build up services.

Our core business is exhibitions... With our focus aimed at creating designs that keep our clients competitive, whilst leveraging their exposure, with exhibition stands that are creative, functional and breathe life into the brands we design and build for.

Expo Guys will design and project manage your small to large scale projects from start to finish - some projects completed to date include: BCE, BMG, Ellies, Taiwan, Howden Africa, SA Hospitality,

The company offers a full range of services for exhibition stands and events, from design brief to handover. Since we manufacture our own exhibition system material, we have limited dependence on other suppliers and are able to offer fast turnaround times and good quality workmanship.

Operating from a 2000 square meter factory in West Turffontein (conveniently located close to Expo Centre), ExpoGuys is also the official electrical contractor and event cooling contractor for the Johannesburg International Motor Show (and Expo Centre). As well as major routes to other exhibition centres.

ExpoGuys also provides flooring, furniture and electrical fittings for hire.

In addition to servicing its own clients, Expo Guys is frequently contracted to build exhibition stands for other large exhibition companies.
